1. **Preference in Drawing** - Refer to information contained in "Preference in Drawings" part two of regulations.

2. **Licenses Issued Through Drawings:** All bighorn sheep licenses in sheep hunting districts 100, 121, 123, 213, 216, 250, 270, 340, 421, 422, 423, 424, 455, 620 and 760 will be issued through drawings. There are also some licenses in districts 300 and 303 that will be issued through drawings. All licenses issued through drawings will be valid for the season dates specified on the licenses.

3. **No-Drawing Licenses (Unlimited Sheep):** Hunters may get bighorn sheep licenses in a number of districts without entering drawings if application is made to the Fish, Wildlife and Parks office in Helena no later than August 31. Each of these sheep hunting districts is assigned a harvest quota. When the quota is reached or approached, the sheep season in that district is closed on 48 hours' notice. This could possibly be within a few days after season opening in some districts. No-drawing (unlimited) licenses are available for hunting districts 300, 301, 302, 303, 500, 501 and 502.

4. Persons who apply for 1980 sheep drawings but are not successful, may apply for a license in an unlimited district and not lose preference status. This may be done by entering a drawing district for first choice and a no-draw district for second choice. Application for a license in an unlimited district must be made by August 31.

5. Each sheep license is valid in one specified hunting district only.

6. Drawings are accomplished by computers. The season number tells the computer which dates of the hunting season and which sex of sheep you have applied for. Your application for a sheep license must contain both the season number and the hunting district. See additional information under "Making Application."

7. Hunters who kill a sheep in Montana may not apply for a Montana bighorn sheep hunting license for the next succeeding 7 years. Persons who obtain a license but do not kill a sheep shall be eligible to apply for another such license in any succeeding year if the unused license is returned to the department before or at the time of application.

JUDGING A "LEGAL" RAM

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the sheep is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See the illustration above.

MOOSE

1. Preference in Drawing - Refer to information contained in "Preference in Drawings" part two of regulations.

2. All moose licenses are issued through drawings.

3. Each moose license is valid in one specified hunting district only.

4. Hunters taking moose must be able to show upon demand for inspection the kill site and complete head. Evidence of sex must remain attached to the carcass.

5. **Limit:** One moose, subject to the sex and age specifications in the hunting district.

6. Hunters who take a moose may not apply for a Montana moose hunting license for the next succeeding 7 years. Hunters who obtain moose licenses but do not kill moose are eligible to apply for another such license in any succeeding year if the unused license is returned to the Department before or at the time of application.

7. Drawings are accomplished by computers. The season number tells the computer the sex of moose and dates of the hunting season you have applied for. Your application for a moose license must contain both the season number and the hunting district. For additional information, see "Making Application."

PART 2, Big Game Hunting Regulations

Montana Department of Fish, Wildlife & Parks, — Helena, MT. 59601
By Order of the Montana Fish and Game Commission

1980

This is **part 2** of Montana's 1980-81 big game hunting regulations. Included is information about hunting dates, bag limits, tentative quotas, licenses, permits and drawings. **Part 1** of the regulations contains license fee schedules, hunting district maps, written descriptions of hunting districts, general regulations and shooting hour schedules. By order of the Montana Fish and Game Commission, the seasons, limits and regulations listed herein shall govern the 1980-81 antelope, bear, bighorn sheep, deer, elk, moose, mountain goat and mountain lion hunting seasons.

Montana Fish and Game Commission
Robert F. Wambach, Secretary, March 15, 1980

REFER TO BOTH PARTS 1 AND 2 WHEN PLANNING YOUR HUNT

PREFERENCE IN DRAWINGS

5-Year Preference

Persons who have applied unsuccessfully for bighorn sheep, moose or mountain goat license drawings for at least five consecutive years may receive 75 percent of these licenses annually issued through drawings. This preference is given only to persons who submit unsuccessful notices with applications for drawings. The official notices, showing years of preference, shall be mailed to previous years' applicants by the Department of Fish, Wildlife and Parks each year about January.

In order to accumulate or maintain preference, applicants must apply under the 75 percent option even if it is the first year they have applied for moose, sheep or goat drawings.

The remaining 25 percent of moose, sheep and goat licenses issued through drawings will be allotted to persons who do not claim preference or who do not intend to accumulate preference. This will give the first time applicant a chance, however small, to draw a license. Remember, if you apply under the 25 percent option you will not accumulate preference and will, in fact, lose whatever preference you may have formerly held.

Landowner Preference

Montana landowners who qualify may receive up to 15 percent of the antelope licenses and special deer permits annually issued in each hunting district. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. The land must be used primarily for agricultural purposes.

For additional information refer to resident application forms for drawings, available from license agents or Fish, Wildlife and Parks offices.

MAKING APPLICATION

1. Applications for license or permit drawings must be made on forms available from Montana hunting and fishing license agents or from an office of the Department of Fish, Wildlife and Parks.

2. An individual may make only one application for each type of license.

3. **Applications must be postmarked no later than June 15, 1980.**

4. License fees must accompany all applications. Nonresident fees must be in the form of money orders, certified checks or casbier's checks.

5. Persons applying for drawings must be at least 12 years of age prior to September 15 of the season for which application is being made and must have completed required firearms safety training if under age 18.

6. No more than 10 percent of licenses issued through drawings for each district may be issued to nonresidents. In districts where there are fewer than 10 antelope, moose, sheep or goat licenses to be issued, none will be issued to nonresidents.

ANTELOPE

1. Antelope licenses are issued through drawings if there are more applications than the number of licenses available. If some licenses remain after drawings, they may be issued through a non-drawing system.

2. All antelope licenses are valid for either-sex antelope.

3. Persons may apply for antelope licenses in groups of five or less (party applications). If one of the party gets a license, all will.

4. Applicants who did not bold an antelope license in 1979 will be given preference in the 1980 drawings.

5. Each antelope license is valid in one specified bunting district only during both regular seasons and special archery seasons.

6. Drawings are accomplished by computers. The season number tells the computer whicb dates of the hunting season you have applied for. Your application for an antelope license must contain both the season number and the hunting district. See additional information under "Making Application."

Deer And Elk Hunting Regulations

Licenses vs. Permits

A hunting license is a document that authorizes the holder to hunt and take specified game. A special permit gives the license holder a wider choice of the age or sex of animals that may be taken in specific districts and must be used in conjunction with a license.

For Example: 1. Hunter No. 1 bolds a deer "A" license which authorizes him to take an antlered deer in district 900. Hunter No. 2 holds a deer "A" license and a special permit. Hunter No. 2 has the choice of taking a buck or doe in district 900.

Example 2. Hunter No. 1 holds an elk bunting license. He is limited to taking an antlered bull elk in district 900. Hunter No. 2 has an elk license and a special permit. Hunter No. 2 has the choice of taking a cow or calf or bull elk in district 900.

In some districts, all deer or elk hunting may be by special permit. Permits are issued through drawings if there are more applications than permits available.

Deer Licenses

1. Deer "A": residents may purchase one resident deer "A" license during a license year. An "A" license is also part of the resident sportsman's license and the nonresident $225.00 license. "A" licenses authorize bunting in all districts open to general deer bunting.

2. Resident "B" and nonresident "B8" licenses are available in limited numbers. Each "B" and "B8" license is valid for one specified hunting area only. "B" and "B8" licenses are issued through drawings if there are more applications than licenses available. The "B" and "B8" licenses usually provide the opportunity for taking a second deer, but bunters need not hold an "A" license before applying for a "B" or "B8" license.

Nonresident Elk (225) Licenses

Nonresidents must purchase the $225.00 combination license in order to hunt elk. This nonresident license includes a conservation license, an "A" deer license, an elk license, a black bear license, authorizes hunting of game birds and authorizes fishing.

Only 17,000 of these licenses may be sold for this hunting season and they are available only through the Fish, Wildlife and Parks office in Helena. **NONRESIDENT HUNTERS WHO HAVE NOT OBTAINED CURRENT $225.00 LICENSES SHOULD INQUIRE ABOUT THEIR AVAILABILITY BEFORE COMING TO MONTANA. DURING 1979 THE $225.00 LICENSES WERE SOLD OUT.**

Applying For Special Permits and Deer B—B8 Licenses

Special deer and elk permits and resident deer 'B" and nonresident "B8" licenses are issued through drawings, if tbere are more applications than permits or licenses available. Application must be made to Helena offices of Fish, Wildlife and Parks and postmarked no later than June 15, 1980. See "Making Application."

Applicants must first hold a valid elk license to apply for a special elk permit, and must hold a valid deer "A" license in order to apply for a special deer permit. Persons who did not hold a special elk permit last year will be given preference in elk permit drawings.

In some hunting districts, all elk bunting may be by special permit only.

Elk Party Applications: Hunters may apply in pairs for special elk permits in hunting districts 310 and 313 late hunting seasons only. For all other elk hunting districts, application is on an individual basis.

Alternate Permits

Alternate permits are primarily for late winter hunts to alleviate game depredation. A listing of alternate permit holders will be compiled as necessary from unsuccessful applications for special elk permits. In the event conditions require damage seasons. names of hunters to receive permits will be drawn from the listing and those persons will be contacted. The fact that you have an alternate elk permit will not affect your preference in future elk permit drawings wbether you hunt on the alternate permit or not.

Refund For Elk Licenses

Residents who apply for special elk permits in elk districts 282, 401, 410, 412, 421, 447, 472, 477, 510, 513, 550, 590, 621, 622 and 631, but do not draw permits, may be refunded the cost of their elk licenses. In order to get the refund, applicants must attach their elk licenses to their applications for drawings. Refunds are possible only in districts described at left.

Do not apply for a refund if you plan to hunt in the elk archery season or any other current season. Persons who receive refunds may not legally purchase another elk license during the current hunting season.

Hunting Time Periods

In some hunting districts, special permits are valid for only a few specified days of the overall season. The purpose is to prevent congestion by limiting the number of persons hunting in an area at one time.

Assignment of time periods is determined by the order in which the applicants are computer-picked during drawings. Once assigned, time periods cannot be changed nor exchanged.
